HVAC & Metals Institute

HVAC/Service Technician 4

Fourth of a 6 class series intended to give the HVAC installer the knowledge and confidence to install, wire and start up small split HVAC systems up through medium sized package roof top units. At the completion of the 6 classes the participants will be able to take the ICE test and apply for the International Training Institutes HVAC Technician Certification. This will also be the first two years of the Service program, with the third year concentrating on troubleshooting.

Class to Include:

- Customer Service
- Service Contracts
- Planned maintenance
- Load Calculations
- Duct Design

Tuesday & Thursday
Beginning 9/22 ending on 12/3 (21 nights)

- This is a 3 credit course, tuition is required. For Continuing Education if you pass the class, tuition will be reimbursed.

Building Trades Journeymen & Apprentices are eligible to take this class
