

HVAC & Metals Institute

CFC Certification

It is a requirement that all person handling refrigerants to be certified per federal code. The HVAC & Metals Institute in conjunction with the International Training Institute and Universal Technical Institute is offering training and certification. CFC certification does not expire or require renewal.

To include training & testing in:

-  Type 1 – Small appliances
-  Type 2 – High pressure refrigerants
-  Type 3 – Low pressure refrigerants
-  Universal (1,2 & 3)

To obtain a CFC certification you must

-  Complete a 12 hour CFC class
-  Pass the core test plus type 1, 2 or 3 test
-  To receive a universal card you must pass all tests
