

HVAC & Metals Institute

ITI's "HVAC PRO" Calculator level 1

Course Requirements:

Participants are encouraged to buy their own calculators prior to class (although you can just sit and watch, if you like). The calculators come with detailed instruction booklets that can be studied in advance. The calculator is available for \$27 (half-price) to those who take this class.

Course Description:

HVAC Pro I: The first two night course will cover the basic functions of the calculator including input in feet and inches, circles and arcs and triangles.

HVAC Pro II: The second two night course will cover advanced functions including the Law of Cosines and practical applications.

For class dates & times check the schedule at www.sheetmetal-16.org and click on "Continuing Education" then call (503) 257-1022 to sign up
