

## HVAC & Metals Institute

# Welding Series / Open Shop

**Course description:** Participants will receive classroom and shop instruction in various welding processes. Individuals are encouraged to come in during Open Shop times to practice what they learned in class. Sign up for topics you are interested in, or just come and utilize the Open Shop / Welding Lab. Appropriate safety attire is required in the shop. Hoods, gloves, leathers & safety glasses are available for loan.

**Space is limited. Call John at the training center to reserve your booth (541) 988-3339.**
